Product Information

OPN-High Pressure Cleaner Concentrate

- *alkaline, highly effective cleaner*

Properties:

- is an alkaline, highly effective cleaner for high-pressure cleaning processes - strongest dirt is easily removed from many materials
- is also suitable for pre-spray and manual cleaning
- removes heavy contaminations from oils, greases, etc.

Application Range:

- to be used on painted parts, chrome, non-ferrous metals, rubber parts and discs
- car cleaning
- machine, equipment, printing plate cleaning, etc.

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Always check the regulations of the device manufacturer before use and observe them!

Pre-dilute OPN High Pressure Cleaner Concentrate 1: 5 to 1:10 with water depending on the degree of contamination. Apply the solution to the (preferably dry) surfaces to be cleaned and let it react. After any mechanical treatment, rinse with water.

Only for professional use! Always observe safety data sheet before use.

Components:

Contains anionic surfactants, nonionic surfactants, phosphates, NTA-derivative, set-up agents, foam regulators, perfume oils, dyes.

Delivery information:

Art.-No. 16140 Disposable Canister: 10 liters content

Art.-No. 16143 Disposable Canister: 25 liters content

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
