## **Product Information**

### **OPN-Anti-Graffiti Spray *for concrete***

- **extra strong**
- **fast effect**

#### **Properties:**

- fast dissolving
- also adheres to vertical surfaces
- active substance evaporates

#### **Application Range:**

- many varnish and paint contaminations from concrete and smooth stone surfaces as well as from glass, ceramics, steel etc.

#### **Application:**

**Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused.** Spray from a distance of approx.. 20cm - let the paints and varnishes that should be removed absorb it and then remove them mechanically e.g. with a spatula. Repeat the process several times if necessary.

#### **IMPORTANT:**

**Be sure to test the material for compatibility of the surface. Many plastics, plexiglass, rubber, leather, etc. are dissolved, discolored or change their structure. This is also possible with some stone and ceramic surfaces.**

**Only for professional use! Always observe safety data sheet before use.**

**WARRANTY: 12 months**

**Delivery information: Art.-No. 60705**

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

**Observe the information on the label and of the EC-safety data sheet!**

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
