- **abrasion resistant**
- **fast-drying**

#### Properties:

- results in an abrasion-resistant coating
- time-saving because fast-drying

#### Application areas:

- for repairing yellow chromated parts which have been damaged for example by drilling, welding, etc.
- protection against weather influences
- effective surface coating for many metals, wood, stone etc. therefore also suitable for decoration purposes

#### Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused. The can should be at room temperature and **only be sprayed in a good ventilated area**. Before each use shake can well for approx. 2 minutes, until the stirring ball moves freely. **Spray and test material compatibility on a similar surface**. Remove rust and degrease the surface thoroughly and spray crosswise from a distance of 25 to 30 cm. In case of several layers let it dry for at least 5 minutes.

**Self-cleaning nozzle.**

**Only for professional use! Always observe safety data sheet before use.**

**Delivery information: Art.-No. 63220**

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

**Observe the information on the label and of the EC-safety data sheet!**
