Product Information

OPN-Lubricating Metal Assembly Paste

Anti Seize - ALU BASE

- *prevents burning*
- *protects against corrosion and reduces wear*
- *temperature resistant*

Properties:

- high-performance assembly paste with a high proportion of solid lubricant
- **working temperature ranges:**
 - as release agent about -20°C to about + 1,200°C
 - as a lubricant about -20°C to about + 240°C
- high-pressure resistance
- prevents seizure, corrosion and reduces wear
- resistant to water
- enables easy disassembly of heat-stressed screw connections, protection against cold welding

Application Range:

- for use in **industry, construction, crafts etc.**

Application:
